

September 2008

The Meadows Montessori Primary School

Admissions Policy

We accept children from the age of 4.5 into our school.

We welcome any children who wish to join us during the school year - subject to availability of places, although the natural time to join would be at the beginning of any new term.

For all children who join us we have an induction policy in place. This process involves other pre-schools, nurseries or other schools. This will ensure that the planned outcomes for each child can be carefully considered and will enable the individual child to develop.

We have a prospectus which highlights many aspects of our school. Within this prospectus is an application form. On receipt of this application form with the required £50 deposit the child will be booked into our school.
